

GARFIELD SEES BIG VICTORY IN L CASE

(Special from United Press.)

Cleveland, Nov. 27.—James R. Garfield, former secretary of the interior, made answer today to the recent statement of John D. Archbold, the Standard Oil magnate, relative to the decision of the United States Supreme Court in the case of the Standard Oil Company. Archbold's statement was as follows: "I believe that the decision will result in legislation looking toward the repeal of the Sherman Anti-Trust law, under the law it is almost impossible for practically any corporation to transact business for even co-operative purposes. The Standard Oil Company is coming to the view that the law is too drastic and that even Mr. Roosevelt himself shares in that opinion."

Here is Mr. Garfield's answer: "Since the decision of the United States Circuit Court of Appeals upholding the government in its suit to dissolve the Standard Oil Company, the statement has been made that this is a barren victory and merely proves that the anti-trust law is unsatisfactory. Such an interpretation of the decision is unjustified. It is true that President Roosevelt pointed out the unsatisfactory condition of the present law, but he also pointed out the condition that before changes were made the government should be given the direct, affirmative control and regulation over the industry, a condition similar to the regulation of railroads and other common carriers. Mr. Roosevelt showed that to amend the Sherman law, the government or the legislature would be most unwise."

"Now, so far as the Standard Oil case is concerned, it is evident from published statements of opinion, that the contest is entirely in the report I made when commissioner of corporations in 1906 which covered all questions of railroad discrimination, competition, methods of control through subsidiary companies and the use of bogus companies and the general organization of the industry. All these unfair methods are now prohibited through injunction, their exposure will help to prevent their repetition, and, in addition, the court may now punish any person who violates its order."

"The court sustains our contention that the law seeks to prohibit the suits of unfair competition and restraint of trade, not merely the methods used to obtain such results. The injunction is broad enough to hereafter reach any device, no matter how clever, in trade restraint."

"Another feature of this decision important to the public, is that the Federal government has shown that no corporation, no aggregation of capital, is stronger than the United States and that in the hands of an efficient administration, the government can be used against even the greatest corporation. The Roosevelt administration made an attack on the Standard Oil Company not because it was big, but because it was disobeying the law."

"For the first time in the history of the oil business the independent oil men are enjoying fair competition with the railroads and are relieved from many of the unfair methods of competition practiced by the Standard Oil Company."

"There is no surer way to prevent monopoly than for the government to retain control over the resources of oil, coal, water and minerals."

Working Properly, Because There is Wind In It, Use Stuart's Dyspepsia Tablets to Set It Going Again.

A Trial Box Free

THE DOCTORS call it flatulency, but unprofessional folks know it as "wind on the stomach," and a most distressing state of things it is. It is a serious condition of this great malady, and is often the forerunner of the most painful and dangerous diseases of the stomach and bowels. The stomach, when it is not working properly, is a source of trouble and discomfort, and it is a source of trouble and discomfort to the system as a whole. The stomach, when it is not working properly, is a source of trouble and discomfort, and it is a source of trouble and discomfort to the system as a whole.

ALL THIS IS EXPLAINED in doctor books, how indigestion food causes gases by fermentation and fermentation in which process some essential fluids are destroyed—burnt up—wasted by chemical action, followed by defective nutrition and the distribution through the alimentary tract of chemically wrong elements and as a consequence the stomach and entire system is affected. Plenty of food, you see, but split in preparation and worse than worthless.

A DERANGED STOMACH is the epitome of evil; nothing too bad to emanate from it, but the gas it generates is probably its worst primary effect and the only way to do away with this is to remove the cause. STUART'S DYSPEPSIA TABLETS go to the root of this trouble. They attack the gas making foods and render them harmless. Flatulency or wind on the stomach simply cannot exist where these powerful and wonderworking little tablets are in.

THEY WERE MADE for this very purpose to attack gas making foods and convert them into proper nutriment. This is their primary and of course a whole book could be written about them and then not all told that might be told with profit to sufferers from this painful disease, dyspepsia. It would mention the years of patient and expensive experiment in effort to arrive at this result—of failures innumerable and at last success. It would make mention of the different stomach correctives that enter into this tablet and make it faithfully represent all.

STUART'S DYSPEPSIA TABLETS are not alone intended for the sick, but well folks as well; for the person who craves hearty foods and wants to eat heartily and run no risk of bad effects, they act like a charm and make eating and digestion a delight and pleasure. They keep the stomach active and energetic and able to do its work without special labor or effort. Don't forget this. Well people are often neglected but the STUART'S DYSPEPSIA TABLETS have them in mind.

A FREE TRIAL PACKAGE will be sent any one who wants to know just what they are, how they look and taste, before beginning treatment with them. After this go to the drug store for them; everywhere, here or at home, they are 50 cents a box and by getting them at home you will save time and postage. Your doctor will prescribe them; they say there are 40,000 doctors using them, but when you know what is the matter of yourself, why go to the expense of a prescription? For free trial package address: F. A. Stuart Co., 100 Stuart Building, Marshall, Michigan.

P. S. Retter send today for samples of the tablet. You will get quite a box of them.

prevent monopolization, or speculative holding, prevent extortion from the consumer and return to the public a just compensation for their use. "The way to safeguard the public welfare and to prevent the misuse of such vital resources is to shut the door before the property is lost or stolen."

Raymond, of Norwalk, 15 acres of Salt Meadow or Great Marsh, so-called, bounded north by the beach and and land of Rowe McDonald; east by land of the late Frederick B. Marvin and a creek running into Long Island Sound; south by the heirs of William Church and west by land of the heirs of Samuel Church.

LEPTON SINCLAIR ON DIET

I have found perfect health and happiness upon a diet of nuts, fruits and soaked grains, with a few salad vegetables now and then. This means that the human system is capable of doing as well on a diet of natural food as it is on a diet of refined food. As I have found it best to eat the skins of such fruits as apples, pears, grapes and tomatoes, I no longer peel anyone to peel them and cut them up and make them into "dainty dishes" for me.

Can a child thrive upon such a diet? I can best answer the question by telling of our experience with my son David, aged 5 years. When we became interested in the new diet, we lacked the courage to give up milk, eggs and white bread, so he continued to suffer the ill effects which are generally regarded as the portion of childhood. This summer he was well and active, but was not gaining in weight as we thought he should. He was eating a lot of nuts and fruits, principally hazelnuts, soaked prunes and fresh fruits, and I interested. He tried it for two months, and the result was startling. His tongue cleared, his breath became sweet, and the color simply leaped into his cheeks. The difference was noticed by everyone in two or three days, and for six weeks he gained at the rate of an ounce a day, which is about four times as fast as a child's normal rate of growth.
